

Dermatological Association of Texas Celebrates Grand Opening of 2nd Location

March 20, 2006, Houston – Dermatological Association of Texas (DAT) will celebrate the grand opening of its 2nd location on Wednesday, March 29, 2006 from 3 to 7 PM. This expansion comes only 5 months after the grand opening of its first location in Clear Lake. The brand new office in the Rice University / Texas Medical Center area offers patients convenience combined with upscale ambiance. This event is open to the general public and will include hors d'oeuvres, drinks, and door prizes. Skincare gift bags will also be distributed to the first 100 guests.

DAT currently has two board certified dermatologists offering quality treatment for all diseases of the hair, skin and nails in addition to helping patients maintain a natural, vibrant appearance through nourishing skin care. Dr. Stephen K. Tyring, Medical Director of the Center for Clinical Studies, is an expert in the areas of dermatology, virology and infectious diseases. He is also a member of the faculty and clinical professor of dermatology at the University of Texas Health Science Center at Houston. Dr. Daniel A. Carrasco graduated from medical school and completed an internship in internal medicine at University of Texas Medical School at Houston. He completed two clinical trial fellowships and was chief resident of the Department of Dermatology at The Mount Sinai Hospital Center in New York City before returning to Texas to join Dermatological Association of Texas.

In addition to medical and surgical dermatological procedures, DAT offers many physician administered cosmetic procedures for the skin including Botox, Restylane, Radiesse, and Sculptra. Our licensed esthetician can perform mild chemical peels and non-particle microdermabrasion (Diamond Tome) as well as offer expert advice on maintaining a health skin care regimen.

To accommodate patients from around the region, DAT has two convenient locations; one in the renowned Texas Medical Center and the other in the NASA/Clear Lake area.

Clear Lake

CHRISTUS St. John Professional Building
2060 Space Park Drive
Suite 200
Houston, Texas 77058

Houston

Houston Medical Center Professional Building
6655 Travis
